George W Bush and Vice-President Dick Cheney are putting immense pressure on the Iraqi government to pass a controversial oil law before they leave office. Iraqi trade unionists are fighting the law, which would effectively hand over Iraq's oil to foreign companies such as BP and Shell for a generation.

Join the Hands Off Iraqi Oil procession through London on Saturday 11 October to launch 100 days of action to stop Bush and Cheney. Come and help a team of Oil Law resisters lasso a giant Dick Cheney and keep him away from a barrel of Iraq's oil. There will be a samba band banging (oil) drums and corporate pirates too!
